

Aquarium / Fish Lesson Plan

Pre-School – Ages 3 to 5 yrs.

Pre-School Lesson Plan

Aquarium/ Fish

- Objectives: Children will learn about fish and how to care for them.
- The teacher will provide various activities, across different academic subject areas to submerge the children in knowledge through entertainment regarding aquarium care and the responsibilities of caring for fish.
- The children will demonstrate understanding of fish as a pet, what they need, and how to care for them.

&

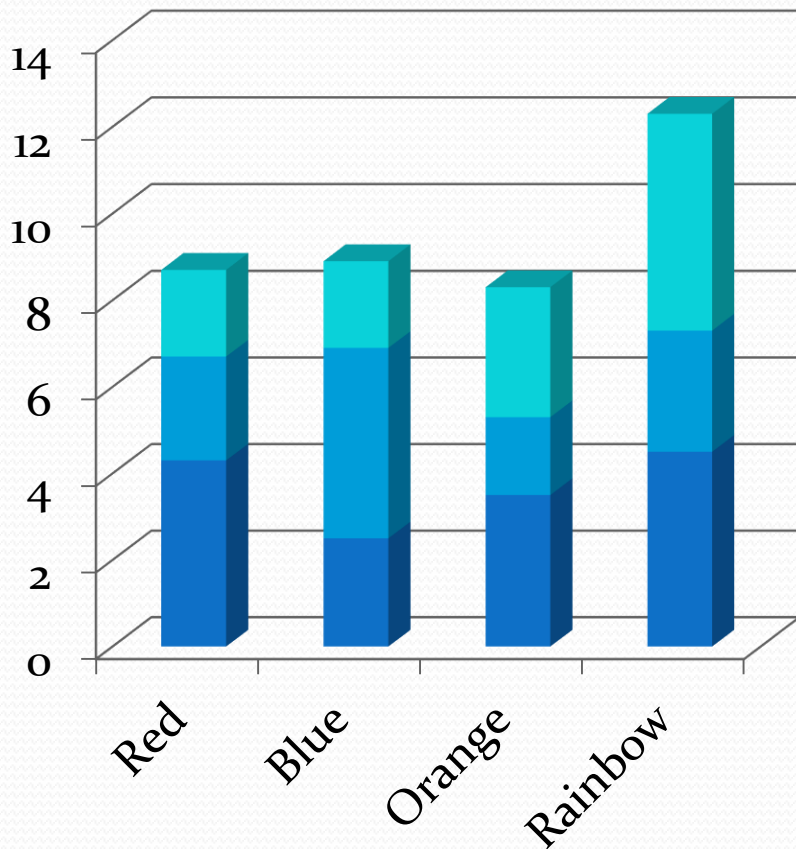

Fish for Number
Matches

Literacy Activities

- Read The Rainbow Fish by Marcus Pfister
- Allow children to share Rainbow Fish (stuffed animal) in pretend area.
- Watch Rainbow Fish on VHS
- Read story The Real Rainbow Fish - Scholastic's Weekly Reader
- Discuss both stories & their differences and similarities.

Math Activities

- Help children organize a chart to vote on each child's favorite color fish.

Math Activities

Help the children create a Chore Chart to organize the responsibilities of caring for their pet fish.
