

Lizard Lunch

Exploring Food Chains

Lizard Lunch!

Research what these lizards eat in the wild and record the information in the boxes below.

*You must find at least 5 things each lizard eats.

Bearded Dragon

-

1. Is your lizard a producer or consumer? How do you know?

2. What organisms did you find in your guts?

3. Is your lizard a herbivore, omnivore, or carnivore? Describe evidence to support your answer.

4. What lizard are your guts from? How do you know?

Make a food chain for your lizard!

Find pictures to show how energy flowed to your lizard.

Remember what every food chain must start with!
