

# Cloaked in Color: Designing Animal Camouflage Student Worksheet

While you are watching the slide presentation about camouflage, complete this graphic organizer.

Animal	Habitat	Adaptation	How does the adaptation help the animal to survive?

**What observations about your class pet can you make?**

**Brainstorm ideas about your costume.**

**Draw your final design. Label the important pieces.**

**Prepare for your Presentation. Use your vocabulary! (adaptation, prey, predator, diet, camouflage, habitat)**

**What adaptations did you make?**

**How did your adaptations help them survive in their habitats?**

**Why did you choose the colors and patterns that you did?**

**Summarize what you have learned from this activity.**
